

**EE777S**

**Features and Benefits:**

- Code free, Easy Operation
- Phone Line free, Prevent phone line cutting
- eFar in control (False alarm reduction processing)
- Loop watch, fully supervised
- Remote supervised, backup control
- Up to 7 zones with bypass & history log
- 24 HRs + rechargeable battery
- Exclusive Keyfob bypass / select zone function

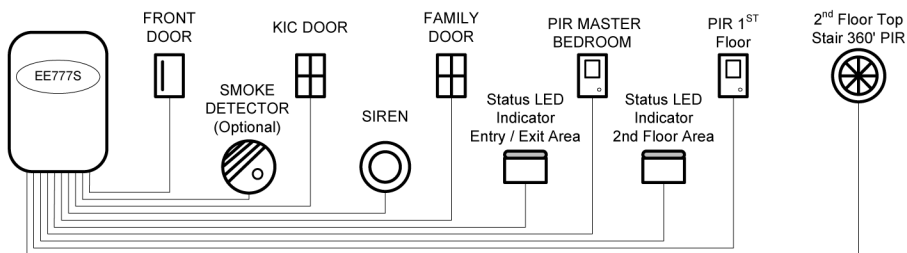

**Specifications:**

- Operation voltage: 12-14 Volt DC.
- Current Consumption: 12mA.
- Aux 12VDC Output: 12VDC/500MA, with RFI and SPS devices.
- Zone, DV, DZ Output Contact: NC, Current Limit = 12mA at 12 Volt DC.
- Zone Output Contact Loop resistance: 100 Ohm.
- Zone Input Loop Respond Time: 0.5 Second.
- Logic Process Reset cycle: Two Minutes.
- Swinger Shutdown: Three times per zone with auto reset after 2 min.
- Dimensions: 3.25" x 2.4" x 0.75"

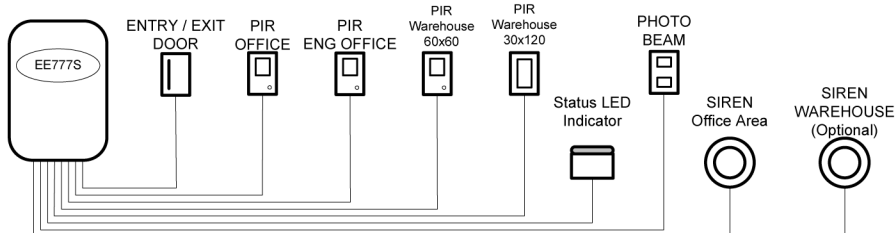

The NavGuard / EE777S is a Portable & Movable Security Control system. With its Code free, Easy Operation, you may implement and use the alarm system as easy as possible. The wireless technology (Phone Line free) prevent EE777S from phone line cutting. The patented unique eFar technology (False alarm reduction processing) gives you a false alarm free environment. EE777S may any type of commercial and residential facility, such as Dry cleaner, Car Wash, Retail store and airplane hangar.

**Typical NavGuard / EE777S LAYOUT**

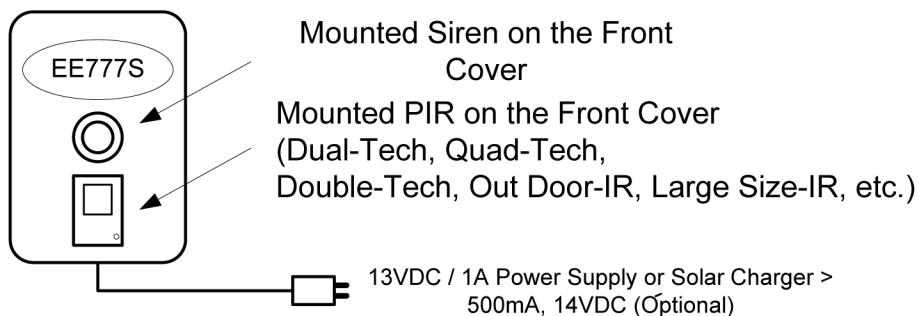

**1. RESIDENTIAL**

**2. INDUSTRY / COMMERCIAL**

**3. PORTABLE & REMOVABLE APPLICATION**

**Ideal for :**

- Construction Site / Office trailer
- Unfinished Construction Home / Facility
- Storage / Garage
- Mobile Home / RV
- Convention / Trade Show Office / Booth
- Small Work Station / Office
- Studio Type Apartment
- Aircraft / Aircraft Hangar
- Yacht / Boat
